EXPERIENCE

Data Analyst

Cosmos Sports | Thane, Maharashtra, India | Feb 2026 – May 2026

- Designed and deployed interactive player profile dashboards using Power BI, Tableau, and Excel, centralizing performance and demographic data for 50+ players to facilitate better team management.
- Conducted financial analysis on enrollment data to optimize the fee structures for youth players and coaching staff, improving pricing transparency and resource allocation.
- Delivered actionable data insights to academy stakeholders, streamlining administrative workflows and enhancing overall financial tracking.

KEY PROJECTS

European Football Club Analytics BI Dashboard

- Engineered an end-to-end BI pipeline analyzing performance metrics for 15,000+ European football players.
- Designed a 3-stage ETL pipeline ingesting FBref/Kaggle datasets into a cloud PostgreSQL schema on Neon.tech.
- Engineered 20+ derived KPIs and designed an interactive Power BI dashboard mapping over EUR 5B in transfer market valuations, successfully isolating 50 undervalued player assets.

Automated A/B Testing Evaluation Engine

- Developed a self-serve statistical tool in Streamlit for product managers to instantly analyze test variants.
- Implemented multiple-testing corrections across two-proportion z-tests, chi-square, and Mann-Whitney U tests.
- Outputted live confidence intervals, p-values, and power directly from raw event-log CSVs or live SQL queries.

Employee Attrition & Flight Risk Analyzer

- Designed a Tableau story featuring a manager-facing risk register, sorted by predicted flight-risk scores, to isolate primary burnout drivers.

- Analyzed SHAP importances over time, identifying job satisfaction and monthly income as top attrition factors.
